# ABOUT CLOUDERA TECHNOLOGY

Cloudera Technology is a Saudi-based enterprise technology company specializing in Cybersecurity, Digital Infrastructure, Cloud Platforms, and Enterprise Technology Solutions.

We help organizations modernize, secure, and optimize their digital environments through resilient infrastructure architectures, security-first methodologies, and future-ready technology solutions designed for modern business operations.

At Cloudera, we believe technology should do more than support operations, it should strengthen resilience, accelerate transformation, protect critical assets, and enable long-term strategic growth. Our mission is to become a trusted technology partner for organizations seeking secure, scalable, and future-ready digital ecosystems.

# EXECUTIVE OVERVIEW

Headquartered in the Kingdom of Saudi Arabia, Cloudera delivers enterprise-grade technology solutions to government entities, enterprises, and rapidly growing organizations across multiple industries.

Our expertise spans cybersecurity, hybrid cloud infrastructure, virtualization, enterprise networking, business continuity, data protection, and modern workplace technologies.

By combining deep engineering expertise with business-oriented strategy, Cloudera enables organizations to reduce operational complexity, strengthen cyber resilience, optimize infrastructure performance, and accelerate digital transformation initiatives.

We operate with a security-first philosophy, ensuring protection, scalability, and operational continuity are embedded into every solution architecture we deliver.

# OUR STRATEGIC FOCUS AREAS

**Secure Digital Infra-  
structure**

**Cybersecurity &  
Digital Resilience**

**Business Continuity &  
Data Protection**

**Infrastructure  
Optimization**

**Cloud & Hybrid  
Transformation**

## VISION

To become a leading regional provider of cybersecurity, digital infrastructure, and enterprise technology solutions, empowering organizations to operate securely, intelligently, and confidently in a rapidly evolving digital world.

## MISSION

To deliver secure, scalable, and business-driven technology solutions that enhance operational performance, strengthen cyber resilience, optimize IT investments, and support sustainable digital transformation.

## CORE VALUES

Security First

Innovation

Reliability

Excellence

Transparency

Partnership

# CORE SERVICES & SOLUTIONS

Cybersecurity  
Solutions

Digital Infrastructure  
Solutions

Network &  
Connectivity Solutions

Cloud & Modern  
Workplace Solutions

Backup, Recovery &  
Business Continuity

Professional  
Services

Vendor-Neutral  
Approach

Security-First  
Engineering

Enterprise-Grade  
Expertise

## WHY ORGANIZATIONS CHOOSE CLOUDERA

End-to-End  
Project Delivery

Scalable &  
Future-Ready Solution

Business-Oriented  
Technology Strategy

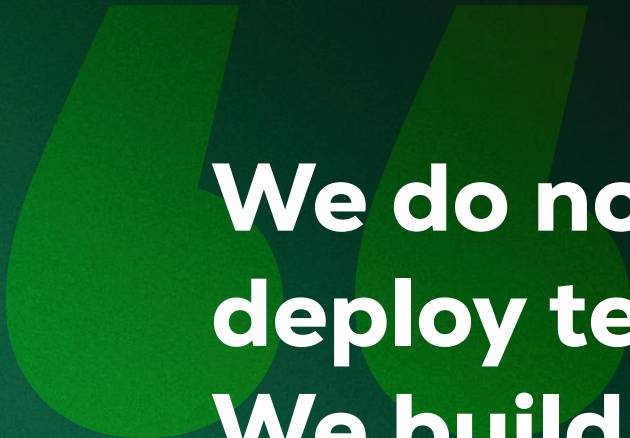

# TECHNOLOGY PARTNERSHIPS

## OUR COMMITMENT

At Cloudera, we are committed to helping organizations navigate digital transformation with confidence. We build secure, resilient, and intelligent technology environments that empower businesses to operate efficiently, adapt rapidly, and grow sustainably in an increasingly connected world.

**We do not simply  
deploy technologies.  
We build long-term  
digital foundations  
for the future.**

For Saudi and Gulf enterprises that cannot afford digital failure,

# CloudEra Technology

is the specialized technology partner that **builds, secures, and operates** modern digital environments.
